## 1. Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- **Increase the extent to which disabled pupils can participate in the curriculum.** By expanding the curriculum as necessary to ensure that pupils with a disability are as equally prepared for life as the able-bodied pupils; (If a school fails to do this they are in breach of their duties under the Equalities Act 2010); this covers teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or schools visits – it also covers the provision of specialist or auxiliary aids and equipment, which may assist these pupils in accessing the curriculum within a reasonable timeframe.
- **Improve the physical environment of the school to enable disabled pupils to take better advantage of education, benefits, facilities and services provided.** This covers improvements to the physical environment of the school and physical aids to access education within a reasonable timeframe;
- **Improve the availability of accessible information to pupils, staff, parents and visitors with disabilities.** Examples might include hand-outs, timetables, textbooks and information about the school and school events; the information should be made available in various preferred formats within a reasonable timeframe

Our school aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind.

At Springwood Heath Primary School we believe an entitlement to learning must be an entitlement for all pupils.

Every child should have access to an appropriate education, which ensures that they have the chance to succeed, whatever their individual needs and the potential barriers to their learning may be.

We pride ourselves on being unique and inclusive where everybody is made to feel very welcome, fully included and has equality of opportunity regardless of background or ability. We celebrate diversity.

The Accessibility Plan for physical accessibility relates to the Access Audit of the School, which remains the responsibility of the governing body. It may not be feasible to undertake all of the works during the life of this accessibility plan and therefore some items will roll forward into subsequent plans. An accessibility audit will be completed by the school prior to the end of each period covering this plan in order to inform the development of a new Accessibility Plan for the ongoing period.

The plan will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan.

## Vision and Values

Our school fully supports the vision of Liverpool City Council's Schools Accessibility Strategy.

'Liverpool fully endorses the 'social model' of disability, which proposes that it is society which dictates who is excluded- not the nature of the disability itself. The model recognises that removing barriers is as much about encouraging positive attitudes and behaviour traits as it is about removing physical barriers'

- We believe that all children and young people have the right to be healthy, happy and safe; to be loved, valued and respected; and to have high aspirations for their future.

Our school endorses the Liverpool Inclusion definition that says:

'A person is disabled if they have a physical or mental impairment that has a substantial and long term adverse effect on their ability to carry out normal day to day activities. A physical or mental impairment includes learning difficulties, mental health conditions, medical conditions and hidden impairments such as dyslexia, autism and speech, language and communication impairments (Equality Act 2010)

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, this procedure sets out the process for raising these concerns.

We have included a range of stakeholders in the development of this accessibility plan, including Governors, staff, parents, School Council, Speech & Language Therapist and pupils.

## 2. Legislation and guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on his or her ability to undertake normal day to day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

### 3. Action plan

This action plan sets out the aims of our accessibility plan in accordance with the Equality Act 2010.
