

# Homework

## Year 2 (Monday 12th October - Thursday 22nd October)

Below are some ideas of activities that you can do at home, as well as the Oak Academy work. Enjoy and let us know how you get on please. We can't wait to see you all on Friday 23rd October.

**English:** Share a book with your family (especially novels by significant authors like Julia Donaldson, Anne Fine and Roald Dahl). This could be you reading to adults, adults reading to you or a mixture of the two.

In class we are reading 'The Enchanted Wood' by Enid Blyton. You could write a short book review, a character description of Frannie, Joe, or Beth or a diary entry. You could draw some illustrations from the book.

**Computing:** Watch the following video: <https://www.bbc.co.uk/bitesize/topics/z3tbwmn/articles/z3whpv4>.

Think about algorithms we use everyday and create your own. Some examples could include instructions for building a toy, a recipe for making a cake, or directions to get to the park.

**Music:** Go onto YouTube and continue to practise our signing song 'Storms':

<https://www.youtube.com/watch?v=-m42d53z-Jw>.

If possible, record yourself and send it on to our class Twitter page.

**Art:** Collect some leaves, twigs, conkers, etc. or ask someone to bring you some if you don't have a garden. Make your own nature sculpture at home using all of the materials you have collected. Take a photograph and send it on to our class Twitter page.

**History:** Create your own newspaper article on the Great Fire of London. Don't forget to include typical features of a newspaper article such as a headline, illustrations and captions.

**Science:** Create your own food diary by recording everything you eat or drink over the next week. Is your diet balanced, or do you have too much of a certain food group?

**PE:** Try to stay active and get some exercise. You could use the Joe Wicks workouts or go onto the GoNoodle website if you can. Be creative at home. How many times can you go up and down the stairs in 2 minutes? How many laps of your yard or garden can you do?

**Maths:** Keep practising the times tables you are unsure of (2s, 5s and 10s). Remember to practise them in order and also out of order. Log in to TT Rockstars for further times tables challenges.

**RE:** Watch the following video about a boy's experience of being an Acolyte: <https://www.bbc.co.uk/programmes/p02mwvjy>.

Think about the differences in the Christian religion compared to the Hindu religion. Create a poster highlighting what you know about God. Illustrate it with a picture of what you think God looks like or what He might have created.
