

My Bubble

My school is different at the moment but this is okay. To keep us all safe I stay in my classroom with my friends and staff, we call this our bubble.

I might find it difficult only having the children in my class to play with, but the staff will be able to help me join in with their games.

In my bubble we will do everything together , we will learn together, have lunch in our classroom together and play together.

If someone in my bubble gets coronavirus, it means that everyone in the bubble will need to go home and not be at school. This is what people mean when they say that the bubble has burst or closed. This is OK.

I will need to stay inside for 14 days or until it is decided that it is safe to return to school. I cannot go to places where other people will be, such as the shop or the park. I also cannot have friends or other family members visit me at my house.

My teachers will give me schoolwork to complete at home and my parents/carers will help me with this.

After 14 days, if I have no fever, no cough and I can taste and smell things, I will be OK to return to school.

All my friends and teachers will be pleased to see me.
Spending time at home in self-isolation when my bubble shuts
down is ok
