

## Global Learning

We aim to develop children's interest in the world through embedding global awareness/issues through the curriculum.

Every term we celebrate our world with theme days for various countries. Autumn term- UK countries, spring term-European countries and summer term-international countries. Each class has a different country to explore to ensure there is no overlap so by the end of year six they have knowledge of 18 countries.

	<b>Europe*</b>	<b>International*</b>
EYFS	Switzerland	India
Year1	France or Ireland	China or Mexico
Year 2	Spain or Sweden	Peru or Australia
Year 3	Italy or Austria	Russia or Columbia
Year 4	Netherlands or Hungary	Mexico or India
Year 5	Greece or Scandinavia	North America or Sri Lanka
Year 6	Germany or Portugal	Brazil or Japan
<b>* other countries may be substituted if appropriate and no overlap</b>		

We alternate UK countries for the autumn term through the year groups, starting with England in EYFS. Then Y1 Wales, Y2 Scotland, Y3 Ireland, Y4 Wales, Y5 Scotland, Y6 Ireland.

We have links with schools in Spain and India, see links below, with whom we have participated in projects, had zoom meeting and share work.

Staff have visited these schools in order to foster strong relationships and they have visited us.
